Geoff's needs for his stage set up are quite simple:

One professional sound system with monitors;

1 vocal mike and one XLR cable for his DI; and

A comfortable, sturdy chair, no arms with a (very) small table to his left for water, towel, guitar accessories, etc.

He also requires a secure, private backstage room with chairs and/or a couch for tuning up, changing clothes, and storing his gear.

Geoff likes non-carbonated spring water for his onstage table and hot water for tea backstage.

Please provide him a hot dinner meal before or after the show if he requests one.

Please reserve one non-smoking hotel room with a king-sized bed in a business class hotel or motel convenient to the venue (no more than 15 minutes distant).

Thanks for your attention to these details and have a great concert!
